

Grillo Gait Trainer

Dynamic and customisable gait trainer.

The Grillo is a customisable gait trainer designed to promote natural gait patterns and easier stepping.

Its adjustable configurations allow for use with multiple clients in various environments, making it an **ideal solution for therapists**. The Grillo features **tool-free adjustments** and a complete range of postural supports.

 The optimal **centre of gravity height adjustment** system allows a Grillo to grow with the user.

Features

The Grillo range is complete with postural supports and interchangeable components.

Grillo mini PTM available for the front drive configuration.
