

Jenx Multistander

Perfect for multi-user environments.

The Jenx Multistander is suitable for children from 9 months to 13 years, and offers an unrivaled amount of adjustment for height and width.

A wide variety of head, trunk, leg, and foot support options are available to customize for individual users needs.

 Smooth and **easy angle adjustments** take the Multistander from horizontal to upright.

Features

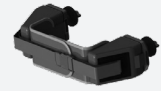

Highly adjustable, allowing room for growth over time.

Accessories

Support Boards

PU chest & pelvic Support Boards in a range of 6 different colours.

Abduction Accessory

Allows 0-30° of individual leg abduction with easy tool-free adjustment.

Oval/ Moulded Headrest

Adjustable, ergonomic headrests providing minimal head support.

Tray

Easy to attach for use in prone or supine, and adjusts for height, angle and depth.

Waistcoat Harness

Provides additional trunk and shoulder stability for children with low tone.

Multigrip™ Headrest

Featuring flexible fixing brackets, all of which give adjustment for height, depth and angle.
