

# Jenx Standz

## A versatile Prone or Supine solution.

The Standz is a versatile standing system, offering prone or supine standing with abducted or neutral leg positioning.

Its tool-free adjustments, individual leg abduction, and leg length discrepancy accommodation make it easy to use and customize for each user's clinical needs.

### Colours available based on size

- Size 1
- Size 2

### Features

Our covers have been designed to wipe clean and also contain an antimicrobial agent to aid infection control.

Each base comes standard with the tilt mechanism using a foot pedal release and safety lock.

### Features & Accessories

#### Tool Free Adjustment

Choose between the robust and cost effective X-Base, or the highly adjustable Y-base.

#### Angle Gauges

Featuring flexible fixing brackets, all of which give adjustment for height, depth and angle.

#### Knee/ Foot Positioning

Provides additional trunk and shoulder stability for children with low tone.

#### Individual Leg Abduction

Adjustable and available in a range of sizes, including a high-rise option.

#### Antimicrobial Covers

Adjustable to encourage mid-line positioning, and completely flip-away when not required.

#### Prone Standing

Provided as a pair, the armrests are independently adjustable for height and angle.
