## Automatic Pill Dispenser

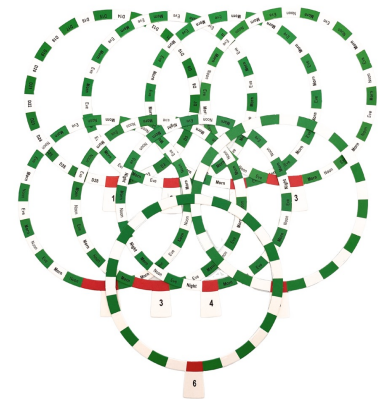

### A simple solution for complex medication management

Counting, organising, tracking and taking daily pills is a full-time job in itself. It's an overwhelming task that never seems to end. It consumes precious time and energy, causing frustration and stress. It's like having a second job no-on signed up for.

What if there was a way to break free from this tiresome routine. A life where pill management is no longer a full-time job. Where time is reclaimed and spent where it truly matters.

Our sophisticated system allows for the effortless set up of complex medication schedules. The user simply fills in the spacious compartments, programs a precise schedule on the large LCD display with the aid of our customisable dosage rings, and lets the automatic pill dispenser take care of the rest. It tracks time and alerts with flashing lights and loud beeps when it's time to take medication, ensuring no missed or mistaken dosages.

Simplify life, stay on track, and regain peace of mind with Medforte.

#### Multiple Alert Methods

Alarm system provides audio and visual cues. Lights flash and the unit beeps until compartment is emptied

#### Simple Setup

Three button setup plus large LCD display makes scheduling a breeze. Program, sit back, relax and wait for the alarm to sound

#### Customisable Dosages

Included rings are designed to meet various needs from 1-6 doses per day

#### Extra Safety Precautions

Large easy read LCD display.  
Built-in dosage magnifier.  
Included key to prevent unauthorised access

#### Up to 28 Days Capacity

Spacious compartments are capable of holding multiple pills at various sizes up to 28 days in a row

#### Wireless Design

Tracks medication at home or on the go. Wireless design allows for portability. Requires 4 AA batteries (included)

## Automatic Pill Dispenser

### Extended Features List

#### Automatic Pill Dispensing System

Reminds you to take medication with beeping alarm and flashing lights. Prevents forgotten doses and accidental double-dosing

#### Pill Delivery Alerts

Includes three alarm volume settings. Unit will flash and beep every 7 seconds for 30 minutes until compartment is emptied according to set schedule

#### Pill Delivery Door

Once a compartment rotates into position, open door, flip unit upside down, and pour pills into hand. Alerts will stop once door is closed and unit is turned right side up

#### 28 Spacious Compartments

Holds multiple pills or tablets per partition so fewer refills are necessary. Perfect for prescription medication, supplements, vitamins, aspirin, antibiotics etc.

#### 9 Interchangeable Dosage Rings

Allows you to program alerts 1 to 6 times daily for a maximum of 28 consecutive days

#### Clear Removable Carousel

Makes it easy to fill slots, install dosage rings and view pills. Rotates automatically per set schedule

#### Locking Cover

Includes powerful latch and manual key to prevent spillage, unwanted tampering and theft

#### Mini Magnifying Glass

Gives a closer look at corresponding dosage information

#### Large Easy-Read LCD

Displays time and allows programmed pill schedules via touch buttons

#### Wireless Battery Operation

Runs on 4 AA batteries (included)
