

# MyWay+ Walker

## Support to go your own way.

MyWay+ is an open frame walker which supports children in an upright position, combined with a wraparound hoistable harness for stability combined with comfort.

The MyWay+ postural support allows children to focus on moving and participating to the best of their ability, rather than on issues such as trying to keep their head up and feeling unstable.

**New robust indoor-outdoor wheels, and resized size 1 frame for optimum support.**

### Features

Hoistable for easier transitions using the optional hoisting straps accessory.

The 360° wraparound support increases sensory feedback and provides core stability.

The new side step function assists for children with additional needs, who often have weaker muscles.

### Accessories

#### Complex Headrest

For secure head positioning, simple headrest also available.

#### Saddle

Available in two different widths, as well as two different sizes.

#### Complex Handles

Easy to hold for children with weaker muscles or need assistance holding on.

+ 4 More

### Independent Adjustments

MyWay Pedal is an elliptical trainer that attaches to the size 2 and 3 MyWay frame. Pedalling in an upright, weight-bearing position targets and strengthens muscles.

Size	Max Weight	Age Range	Frame Width	Frame Length	Frame Weight
1	25 kg	1-5 years	57 cm	84 cm	14 kg
2	50 kg	4-11 years	67 cm	93 cm	7.5 kg
3	80 kg	9-16 years	72 cm	118 cm	11 kg
