

Rifton Tricycle

For the joy of independent movement.

Biking is more than just recreational; it's therapeutic. We know the health benefits that come with cycling, especially for children with disabilities – improved leg strength,

posture, balance and range of motion. The Rifton Tricycle can be configured for maximum support, or with minimal prompts for freedom of movement to suit any needs.

☰ ✓ Choose between **blue, red, teal** or other colours for the frame, depending on size.

Features

Position the backrest vertically or at a 7½° or 15° recline.

Comfortably accommodates large clients up to 140 kg.

The adjustable brake can provide drag, or lock the wheels for safe transfer.

Accessories

Rear Steer

Lets a caregiver aid in steering the tricycle from behind, giving the rider a feeling of independence.

Front handbrake

Can be positioned for left or right-hand use, and locked for parking.

Laterals

Features independent angle adjustment, and can swing out of the way for easy transfers.

Headrests

Adjustable horizontally and vertically for optimal positioning with tool-free adjustment.

+ 11 More

Easy to transport

Remove rear wheels and front end, and flip down the backrest for **easy transport**.
