

# Squiggles Stander

## The perfect start for little ones.

The Leckey Squiggles Stander is a gas-operated stander that is designed with moderate to complex positioning needs in mind.

The stander promotes bone density, motor abilities, and reduces spasticity while encouraging independence and function.

### Colours Available

- Blue
- Pink
- Green

### Features

Interacting with others at eye level is made easier due to Squiggles' low to the ground positioning.

Squiggles is practical and easy for parents to use with its lightweight and simple to adjust features.

### Accessories

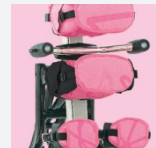

#### Three-in-one

The Squiggles Stander offers prone, upright and supine standing.

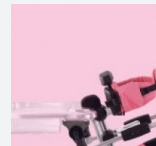

#### Ideal for multi-users

Adjustability offered for the chest, hip and knee supports as well as the head support in supine.

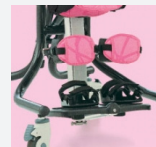

#### Sternum Pad

The sternum pad enables extension in prone and freedom for the arms.

#### Designed and Built to Last

With a lightweight and robust frame that can easily be disassembled.

#### Sandal Option

Where additional foot stability is needed, the footplate can be fitted with sandals.

#### Fabric Covers

The machine washable covers are available in four colours with a fun, bright pattern.
