

Compass Chair

Ideal for the school environment.

The Compass Chair is an ideal inclusion chair for mildly involved students, offering a supportive seat, sturdy armrests, and a stable frame.

The chair's non-slip texture, calming blue color, and minimalist design make it blend easily into any classroom environment while providing sensory boundaries.

Features

PU support pads are included as standard for hip support with easy, flip-away action when not in use.

The flip-up angle adjustable footplate accommodates for easy transfers.

Choose from multiple feet accessories to accommodate each user.

The seat depth is fully adjustable with quick and easy tool-free adjustment.

Accessories

New! Low Friction Feet

The low friction legs allow the chair to slide easier.

New! High Friction Feet

Standard legs and short standard legs both provide height adjustment.

New! Dynamic Feet

Dynamic Feet add a subtle bounce for better focus and gentle movement.

Stability Feet

Adjustable stability feet to accommodate more active students.

Seat Belt

Clip the seat belt into the seat when needed for safety or postural support.
